Subject: Estimate for Surgery

Respected Sir/Madam,

I am hereby referring you the case of Amina Khan (ID no: AH370236), 13 months Female child having a congenital heart disease (Tetralogy of Fallot with small branch PA's).

The patient is under the care of our department at Asian Heart Institute, BKC, Bandra.

The child requires open heart surgery (ICR TOF with monocusp).

The estimated cost of the surgery is approximately Rs.2, 65,000/- (Rs.2, 25,000/- (cost of surgery) + 40,000/- (cost of PTFE patch)

The family is poor and is not able to afford the treatment and requires financial help for the estimated cost.

Regards,

Dr. Sarang K Gaikwad.

Consultant Pediatric Cardiac Surgery.
