YOUR SUPPORT WILL HELP MASTER MANAS MANGESH RAUT WHO IS SUFFERING FROM BLOOD CANCER AND NEEDS TO UNDERGO CHEMOTHERAPY & BONE MARROW TRANSPLANT

Name: Master Manas Mangesh Raut
Age: 11 years old
Gender: Male

Case History: Master Manas Mangesh Raut is 11 years old boy suffering from relapsed Acute Lymphocytic Leukemia (*It is a type of cancer of the blood and bone marrow. The word 'acute' in acute lymphocytic leukemia comes from the fact that the disease progresses rapidly and creates immature blood cells, rather than mature ones. The word 'lymphocytic' in acute lymphocytic leukemia refers to the white blood cells called lymphocytes, which all affects. When this happens blood cell production becomes out of control. The bone marrow produces immature cells that develop into leukemic white blood cells called lymphoblasts. These abnormal cells are unable to function properly, and they can build up and crowd out healthy cells*) and needs to undergo chemotherapy & bone marrow transplant. Due to their financial condition they had been going door to door for financial support and hence could not treat Master Manas Mangesh Raut. His health started deteriorating day by day and they took him to Kamalnayan Bajaj Hospital & Marathwada Medical & Research Institute, Aurangabad. Doctors informed them that he requires an urgent chemotherapy & bone marrow transplant as early as possible.
